Our history

We are a family corporation engaged for three generations in the production, distribution and marketing of plastics.

In **1973, STIR S.p.A.** was born, and within a few years, became the biggest business enterprise in Southern Italy

In **2004, STIR S.p.A.** broadens its range of services and complements its production activity, historical mission, the marketing of special polymers for the plastics industry by acquiring the **RG CHEM.**

To meet the needs of customers and satisfy every need, in **2006 STIR S.p.A.** decides to further expand its scope through the distribution of polyolefins.

In **2013**, all the PVC compounding activities of STIR were spun off and transferred to a new company, **STIR Compounds.**

The spinoff operation, decided in the framework of the restructuring plan of the STIR group, is based on the strong belief that production and distribution activities require different strategies and thus, should be developed in independent structures.

Today **STIR S.p.A. is the holding company of the group**, holds the investments of the other companies that comprise it and concentrates **in the distribution of plastic materials**, an activity that is continuously strengthened through agreements with domestic and international partners.

Today

STIR S.p.A. is the largest **plastics distribution company** in southern Italy.

Holding of the corporate group consisting of the companies **STIR Compounds** and **RG CHEM**, **STIR S.p.A.** also wields an important role in the coordination and managerial development.

It combines an organized, efficient, flexible and reliable customer service with a network of widespread and qualified sales agents and sellers.

The logistic service offered covers the entire Italian territory and allows quick and punctual deliveries, even those just in time.

A constant and qualitative selection and monitoring of suppliers, over time, has led to establishing a strong working relationship with Carmel Olefins, a Bazan group company.

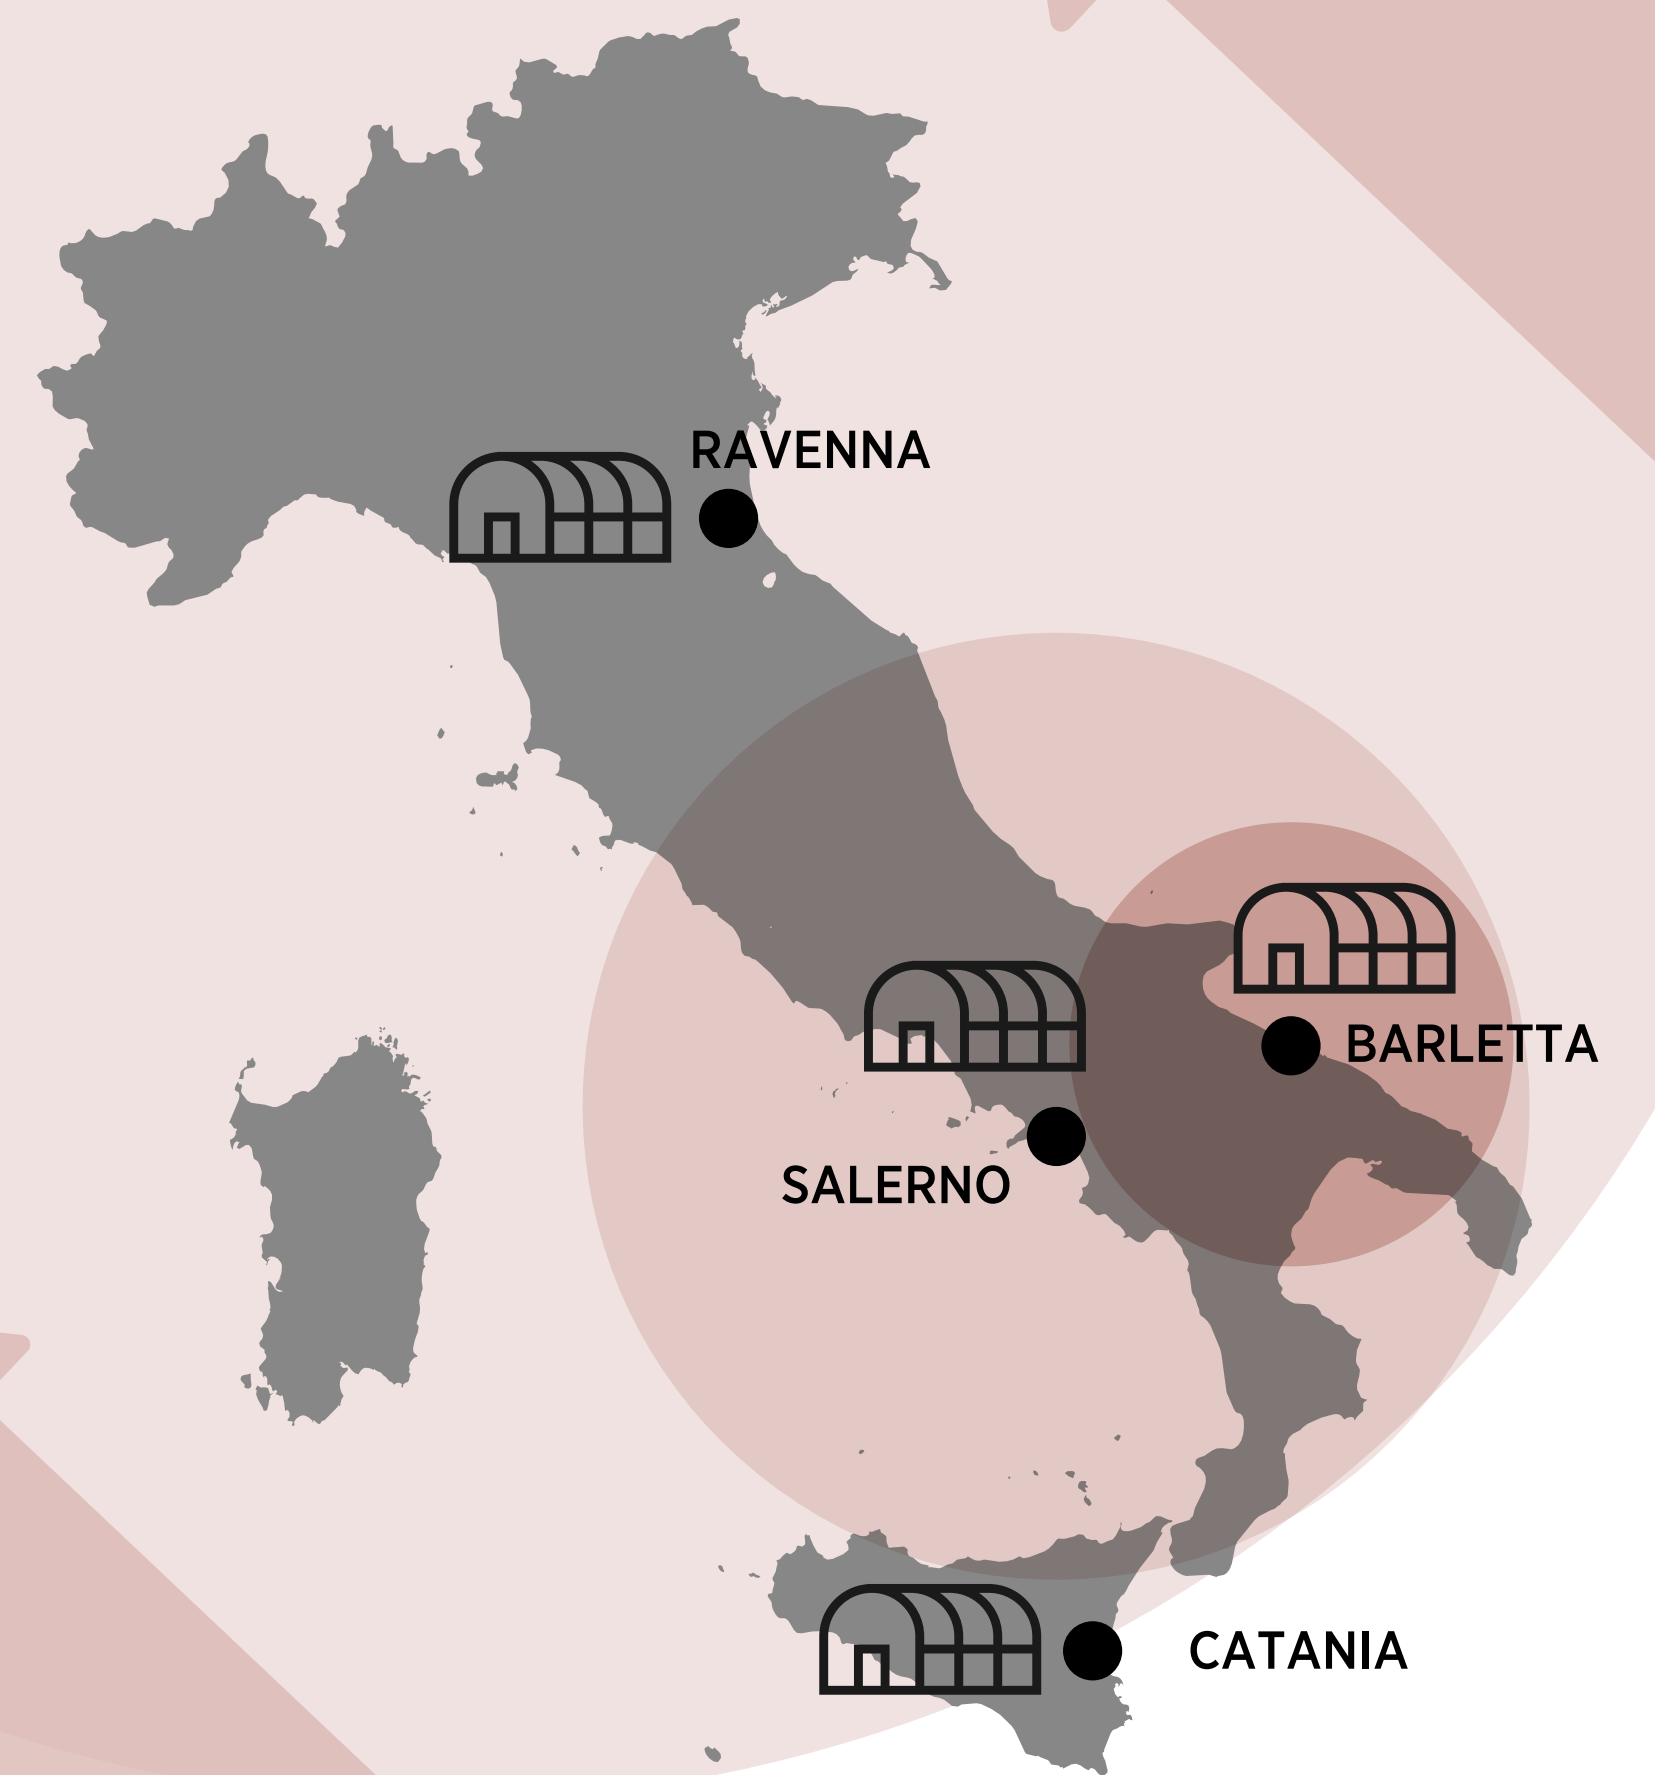

4

LOGISTIC 4 Domestic DEPOTS

In order to offer customers an essential "just in time" service, STIR uses four warehouses that cover the entire national territory.

The Milan warehouse for northern Italy, the headquarters of Barletta, Salerno and Catania depot for the southern center and the islands, represent three strategic points for the sorting and storage of goods in case of a customer's special needs.
